INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and Council Of the City of Dallas, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the City of Dallas, Georgia as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Qualified Opinion

As of the date of the audit report, the actuarial report that is relied upon for Other Post Employment Benefit (OPEB) Plan balances and disclosures was not available. These items are required by *GASB 75 Accounting and Reporting for Post-Employment Benefits Other Than Pensions*. The City's Net OPEB Liability and Deferred Outflows and Inflows associated with the OPEB Plan typically experience material fluctuations from year to year which could have a material effect on the Proprietary Fund's and the Citywide liabilities, deferred outflows and inflows, and ultimately net position.

Qualified Opinions

In our opinion, except for the effects of the matter described in the "Basis for Qualified Opinion" paragraph, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, and each major fund of the City of Dallas, Georgia, as of June 30, 2021, and the respective changes in financial position, and where applicable, cash flows thereof and the respective budgetary comparisons for the General Fund and the special revenue funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Schedule of Changes in Net Pension Liability and Related Ratios on page 42, the Schedule of Contributions - Pension Plan on page 43, the Schedule of Changes in Net OPEB Liability and Related Ratios on page 44, and the Schedule of Contributions - Other Post-employment Benefits on page 45, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion and Analysis, that accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Dallas' basic financial statements. The Individual Fund Schedule and Schedule of Special Purpose Local Option Sales Tax Expenditures, as required by the Georgia code section OCGA §48-8-121, are presented for purposes of additional analysis and are also not a required part of the basic financial statements.

The Individual Fund Schedule and the Schedule of Special Purpose Local Option Sales Tax Expenditures are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain limited procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Individual Fund Schedule and the Schedule of Special Purpose Local Option Sales Tax Expenditures are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 23, 2022, on our consideration of the City of Dallas, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Dallas, State Georgia's internal control over financial reporting and compliance.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances Of Governmental Funds to the Statement of Activities

For the Year Ended June 30, 2021

Net Change in Fund Balances - Total Governmental Funds		\$ 1,872,056
Amounts reported for governmental activities in the Statement of Activities are different because:		
Govenmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets. For the current period, these amounts are:		
Expenditures for Capital Assets Less Current Period Depreciation Expense	1,669,378 (1,373,908)	295,470
Unearned revenue in the fund financial statements represents property tax billed but uncollected and is eliminated in the governmental activities.		(8,160)
Pension contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension liability is measured before the contributions are made. Pension expenses, which are the changes in net pension adjusted for changes in deferred outflows and inflows of resources related to the pension plan are reported in the Statement of Activities.		
Pension Expense		(201,183)
Repayment of principal of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.		
Repayment of Lease Principal		7,404
Some other financing sources are reported in the Statement of Revenues, Expenditures, and Changes ini Fund Balance, but not in the Statement of Activities.

Notes to the Financial Statements June 30, 2021

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The City operates under a Council-Manager form of government and provides the following services as authorized by its charter: public safety (police), streets, sanitation, health and social services, culture-recreation, public improvements, planning and zoning, and general administrative services. In evaluating how to define the government for financial reporting purposes, management has considered all potential component units. As required by generally accepted accounting principles, certain potential component units are considered for inclusion in the financial report because of the significance of the City's influence over their operation or finances. Significant influence or accountability is based primarily on operational or financial relationships with the City (as distinct from legal relationships). In accordance with the above criteria, the City does not include any component units.

Related Organization: The Housing Authority of the City of Dallas is a related organization that has not been included in the reporting entity. The Authority provides low-income housing to eligible families in the City. The Authority's Board consists of six members that are appointed by the Dallas City Council. The City is not financially accountable (does not impose will or have a financial benefit or burden relationship) for the Authority.

The more significant of the City's accounting policies are described below.

B. Government-wide and Fund Financial Statements

The basic financial statements include both government-wide and fund financial statements, each of which present different views of the City. The government-wide and fund financial statements categorize primary activities as either governmental or business-type.

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of inter-fund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, permits and fines, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported as *general revenues*.

Fund financial statements emphasize major funds in either the governmental, proprietary, and fiduciary (if any) funds. Non-major funds (if any) are reported as a separate column in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The financial statements of the City have been prepared in conformity with generally accepted accounting principles (GAAP) as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary funds financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Notes to the Financial Statements June 30, 2021

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Taxes, licenses, and interest associated with the current fiscal period are all considered susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, and unrestricted as needed.

D. Fund Types and Major Funds

Major Governmental Funds:

These are the funds through which most governmental functions typically are financed. Governmental fund types use the flow of current financial resources measurement focus and the modified accrual basis of accounting. The funds included in this category are the:

General Fund - This fund is established to account for resources devoted to financing the general services that the City performs for its citizens. General tax revenues and other sources of revenue used to finance the fundamental operations of the City are included in this fund. The fund is charged with all costs of operating the government for which a separate fund has not been established.

Special Revenue Funds - These funds are used to account for revenue sources that are legally restricted to expenditures for specific purposes (not including expendable trusts or capital projects). The City has elected to present three special revenue funds: Confiscated Drug Fund, Hotel/Motel Tax Fund, and the Subdivision Infrastructure Fund as major funds. The Confiscated Drug Fund accounts for cash received from the confiscation or sale of capital assets acquired through confiscations. The Hotel/Motel Tax Fund accounts for tax proceeds from the City's hotel/motel tax revenue. The Subdivision Infrastructure Fund accounts for revenues and expenditures associated with compliance improvements made at various real estate developments within the City.

Capital Projects Funds - These funds are used to account for projects funded by grants and the special purpose local option sales tax. The City maintains one SPLOST capital project fund, the 2017 SPLOST Capital Projects Fund.

Major Proprietary Funds:

Proprietary funds are used to account for operations for which a fee is charged to external users for goods or services and the activity is intended to be self-supporting.

Water/Sewer Fund and Sanitation Fund - The City reports the water and sewer, and sanitation funds as major proprietary funds. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues are charges to customers for sales and services. The water and sewer fund recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the government's proprietary funds and various other functions of the

Notes to the Financial Statements June 30, 2021

government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions.

Amounts reported as program revenues include charges to customers for good, services or privileges provided, operating grants and contributions, and capital grants and contributions, including any special assessments. General revenues include all taxes. These funds are accounted for on the flow of economic resources measurement focus and use the accrual basis of accounting.

E. Stewardship, Compliance, and Accountability

Budgetary Data:

Formal budgetary accounting is employed as a management control for all funds of the City. Annual operating budgets are adopted each fiscal year through passage of annual budget ordinance and amended as required and the same basis of accounting is used to reflect actual revenues and expenditures/expenses recognized on a generally accepted accounting principles basis. Budgetary control is exercised at the department level and expenditures may not legally exceed appropriations at this level. No supplemental budgetary appropriations were necessary during the current year. All unencumbered budget appropriations lapse at the end of each fiscal year.

The general and special revenue funds legally adopt an annual budget. The department heads may amend their budget, so long as the total department level budget does not change. The Capital Projects Funds adopt a project length budget.

Deposits with Financial Institutions:

State statutes require that the City's deposits in excess of insured amounts be collateralized by securities held in the name of the City by the trust department of a bank that does not hold the collateralized deposits.

F. Cash

Cash consists of amounts in demand deposits that are insured or collateralized as required by law.

G. Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. Estimated unbilled revenues from the enterprise fund are recognized at the end of each year on a pro rata basis. The estimated amount is based on billings during the month following the close of the fiscal year.

H. Internal Balances/Transfers

Due To/From Other Funds - Interfund receivables and payables arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed.

I. Inventories/Prepaid Expenses

Inventories for all governmental funds are recorded as expenditures when purchased; however, material amounts, if any, of inventories are reported as assets of the respective fund. Inventories of the enterprise fund, if any, are valued at the lower of cost (first-in, first-out) or market. Prepaid expenses are certain payments to vendors that reflect costs applicable to future accounting periods and are recorded as prepaid items in both government wide and fund balance statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather when purchased.

J. Other Assets

Other assets held are recorded and accounted for at cost.

Notes to the Financial Statements June 30, 2021

K. Capital Assets

The City's property, buildings, equipment and infrastructure (streets, bridges, curbs, sidewalks, drainage systems, lighting system, etc) with useful lives of more than one year and a cost greater than \$5,000 are capitalized and depreciated. The assets are reported in the applicable government or business-type activity columns in the government-wide financial statements, and by fund in the statement of net position for proprietary funds.

Property, plant, and equipment are stated at cost. When cost could not be determined from the available records, estimated historical cost was used to record the estimated value of the assets. Assets acquired by gift or bequest are recorded at their fair market value at the date of transfer.

Depreciation of exhaustible capital assets used by enterprise funds is charged as an expense against operations, and accumulated depreciation is reported on its balance sheet. Depreciation has been provided over the estimated useful lives using the straight-line method of depreciation.

Interest incurred during the construction phase of capital assets of enterprise funds is included as part of the capitalized value of the assets constructed.

The City's infrastructure consists of acquisitions of general infrastructure assets made after the implementation of GASB 34 on June 15, 2003.

L. Long-Term Debt and Bond Issuance Cost

Long-term obligations of the City are reported as a liability in the government-wide and proprietary fund financial statements. Outstanding debt and other obligations are reported as a liability in the government-wide and proprietary financial statements. Bond discounts and premiums for proprietary funds are capitalized and amortized over the term of the respective bonds using a method that approximates the effective interest method. Bond discounts are presented as a reduction of the face amount of bonds payable; premiums are presented as an increase of the face amount of bonds payable. In the fund financial statements, governmental funds recognize bond premiums and discounts during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing uses. Issuance costs are reported as debt service expenditures.

M. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City of Dallas has two types of items that qualify for reporting in this category. They are deferred costs related to the City's pension and OPEB plans reported in the government-wide and proprietary funds statements of net position.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. At the government-wide and proprietary fund level the City recognizes deferred inflows for changes in the value of the City's pension and OPEB plans. At the governmental fund level, deferred inflows of resources are recognized for unearned property tax income.

N. Net Position Flow Assumption

Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are

Notes to the Financial Statements June 30, 2021

considered to be applied. It is the government's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

O. Fund Balance Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

P. Compensated Absences

Full-time, permanent employees are granted vacation and sick leave benefits. Vested or accumulated vacation leave is accrued in the government-wide and proprietary financial statements and governmental funds only report the portion expected to be liquidated within the current year. Governmental funds report compensated absences only when employees are no longer employed with the City. Vacation leave is calculated based on an employee's anniversary date. For governmental activities, compensated absences are liquated by the General Fund. No liability is recorded for nonvesting accumulating rights to receive sick pay benefits.

Q. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City of Dallas' Retirement Plan (the Plan) and additions or deductions from Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

R. Fund Equity/Net Position

Fund equity at the governmental fund reporting level is classified as "Fund Balance". Fund equity for all other reporting is classified as "Net Position".

<u>Fund Balance</u> - represents the difference between current assets and current liabilities. In the fund financial statements, governmental funds report fund balance classifications based on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

- Nonspendable fund balances are reported as nonspendable when amounts cannot be spent because they
 are either (a) not in spendable form (for example, items that are not expected to be converted to cash) or (b)
 legally or contractually required to be maintained intact.
- Restricted fund balances are reported as restricted when there are limitations imposed on their use either
 through the enabling legislation adopted by the City or through external restrictions imposed by creditors,
 grantors or laws, or regulations of other governments.
- Committed fund balances are reported as committed when they can be used only for specific purposes
 pursuant to constraints imposed by formal action of the City Council through the adoption of a resolution. Only
 the City Council may modify or rescind the commitment.

Notes to the Financial Statements June 30, 2021

- Assigned fund balances are reported as assigned when amounts are constrained by the City's intent to be
 used for specific purposes, but are neither restricted nor committed. Intent would be expressed by the City
 Council itself or the Council would delegate the authority to assign fund balance to management.
- Unassigned fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criteria. The City reports positive unassigned fund balance only in General Fund.
 Negative unassigned fund balance may be reported in all funds.

When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted fund balance, it is the City's policy to use fund balance in the following order: committed, assigned and unassigned.

Net Position – represents the different between assets and deferred outflows of resources less liabilities and deferred inflows of resources. Net Investment in Capital Assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any unspent borrowings for the acquisition, construction of capital assets. Net Position may be reported as restricted or unrestricted.

S. Property Taxes

Property taxes are levied when the digest is received from Paulding County (usually in October), based on the assessed value of property, which is 40% of estimated (appraised) market value. A re-valuation of all real property must be made if State criteria are not met regarding recent sales and assessed values. The City bills and collects its own property taxes.

Property taxes are recognized as revenue when they are levied because they are considered to be both measurable and available. Proper allowances are made for estimated uncollectible accounts and delinquent accounts.

NOTE 2. CASH AND INVESTMENTS

The City's cash and investments are considered to be cash on hand, demand deposits and certificates of deposit. Investments are stated at fair value (the City has no investments other than cash.)

Primary Government:

Cash as of June 30, 2021, is classified in the financial statements as follows:

Cash Balances as of June 30, 2021 are classified in the financial statements as follows:

Statement of Net Position:

 Cash
 \$6,837,446

 Restricted Cash
 3,127,284

Total Cash \$9,964,730

At year-end, the book balance of the City's deposits was \$9,964,730, including restricted cash of \$3,127,284 and the bank balance was \$10,690,380. The bank balance is insured or collateralized by securities held by the City or by its agent in the City's name (category 2).

Notes to the Financial Statements June 30, 2021

NOTE 3. RECEIVABLES

Accounts receivable consists of amounts due from customers for charges related to providing water/sewer and sanitation services. Accounts receivable also consist of amounts due from other customers. Taxes due consist of property tax and local option sales taxes.

Amounts due as of June 30, 2021, including the applicable allowances for uncollectible accounts, are as follows:

	(General Fund	M	otel Tax Fund	F	Projects Fund	S	Water ewer Fund	S	anitation Fund		Total
Recievables:												
Accounts	\$	20,453	\$	-	\$	*	\$	1,271,364	\$	173,855	\$	1,465,672
Taxes		401,205		1,444		=		-		-		402,649
Intergovernmental		60,174				319,622					_	379,796
Total		481,832		1,444	`	319,622		1,271,364		173,855		2,248,117
Less: Allowance for Uncollectibles	-	(16,806)	_	- 126 	R-	2	_	(287,199)	===	(82,271)	_	(386,276)
Net Total Receivables	\$	465,026	\$	1,444	\$	319,622	\$	984,165	\$	91,584	\$	1,861,841

Property tax is levied upon receipt of the digest from Paulding County and based upon the assessed value at January 1, 2020. Taxes were levied October 20, 2020 and due by December 20, 2020. The billings are considered past due 60 days after the tax billing date, at which time the applicable property is subject to lien and penalties and interest begins to accrue. Generally, liens may attach to property for unpaid taxes on January 1st of the subsequent year.

Assessed values are established by the Paulding County Tax Assessor's office and are currently calculated at 40% of the market value. The gross assessed value of real and personal property at January 1, 2020 was \$390,612,696.

Based on the 2020 millage levy of 4.17, a property owner would pay \$4.17 per \$1,000 of assessed valuation.

Current tax collections of \$1,599,479 for the fiscal year ended June 30, 2021 were 98.51% percent of the tax levy.

All property taxes are recognized in compliance with NCGAI-3 (Revenue Recognition-Property Taxes) which states that such revenue is recorded when it becomes measurable and available. Available means due, or past due, and receivable within the current period and collected no longer than 60 days after the close of the current period.

Enterprise accounts receivable consists of billed and unbilled services to utility customers at June 30, 2021. The allowance for uncollectible accounts represents approximately 26.8% of water/sewer and approximately 42.5% of sanitation total outstanding utility billings.

Capital projects fund receivable consists of current special purpose local option sales tax collected from Paulding County after fiscal year end.

NOTE 4. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

Outstanding balances between funds reported as "due to/from other funds" include outstanding charges by one fund to another for services, goods, short-term non-operating subsidies, and other miscellaneous transactions between funds. This activity is similar to lending/borrowing arrangements and outstanding balances at year-end are presented as "due to/from other funds". Balances between governmental or proprietary funds are netted when presented in the government-wide statements and reported as "internal balances".

Notes to the Financial Statements June 30, 2021

As of June 30, 2021, interfund receivables and payables that resulted from various interfund transactions were as follows:

Receivable Fund	Payable Fund	 Amount
General Fund General Fund	Sanitation Infrastructure	\$ 397,848 3,164
		\$ 401,012
Confiscated Asset	General Fund	\$ 310
Subdivision Infrastructure	General Fund	\$ 14,058
Capital Projects - 2017 Capital Projects - 2017	General Fund Water	\$ 2,110 17,500 19,610
Water and Sewer	General Fund	\$ 45,157
Sanitation	Water	\$ 64,492

Transfers and Payments:

Routine transfers and payments between funds are to subsidize operations and to fund capital projects and capital acquisitions. For the year ended June 30, 2021, interfund transfers were as follows:

Source Fund	Transfer to Fund	Aı	mount
Hotel/Motel Tax	General Fund	\$	9,924
		\$	9,924

Notes to the Financial Statements June 30, 2021

NOTE 5. CAPITAL ASSETS

The following table provides a summary of capital asset activity for governmental activities:

	Beginning			Ending
Governmental Activities	Balance	Additions	Deletions	Balance
Nondepreciable Capital Assets				
Land	\$ 4,108,271	\$ -	\$ -	\$ 4,108,271
Construction In Progress	980,617	1,142,958	<u>2</u>	2,123,575
Total Nondepreciable Capital Assets	5,088,888	1,142,958		6,231,846
Depreciable Capital Assets				
Buildings and Improvements	10,432,571	149,665	Ħ	10,582,236
Machinery and Equipment	4,688,354	330,335	(17,738)	5,000,951

Buildings and Improvements	(1,642,152)	(425,696)	=	(2,067,848)
Machinery and Equipment	(1,795,685)	(194,068)	22,156	(1,967,597)
Distribution and Collection Systems	(11,081,897)	(774,771)	=======================================	(11,856,668)
Total Accumulated Depreciation	(14,519,734)	(1,394,535)	22,156	(15,892,113)
Total Depreciable Capital Assets, Net	35,367,437	(1,080,055)	2,734,962	37,022,344
Total Capital Assets, Net	\$47,688,758	\$ 5,408,915	\$	\$ 53,097,673

Depreciation Expense for Water/Sewer was \$1,348,942 for the year ended June 30, 2021,

Estimated useful lives used to compute depreciation are:

Infrastructure	10-20 years
Machinery and Equipment	5-10 years
Buildings and Improvements	30-40 years
Water Lines and Meters	10-40 years
Sewer Lines	40 years

NOTE 6. LEASES

Operating Leases

On June 30, 2015, the City entered into an operating lease agreement with Tyler Technologies for the lease of Tyler's computer software products. This lease qualifies as an operating lease for accounting purposes (title will not transfer at end of lease). This operating lease gives the City access to Tyler's general ledger reporting software, utility billing software, municipal fines software, property tax software, and business licenses software, all used in the daily activities of the City. The City agreed to pay a yearly subscription fee of \$40,361 for these services.

Notes to the Financial Statements June 30, 2021

Capital Leases

On January 15, 2019, the City executed an agreement with Ally Bank whereby funds were appropriated. The lease agreement qualifies as a capital lease for accounting purposes and therefore, has been recorded at the present value. The lease was paid in 7 quarterly installments of \$3,783 bearing interest at 5.94% and matured during fiscal 2021. Depreciation expense on the leased equipment for the year ended June 30, 2021 was \$4,920.

On March 15, 2021, the City executed lease payable with Americredit Financial Services for the purchase of a 2021 GMC Sierra for the police department. The lease agreement qualifies as a capital lease for accounting purposes and therefore, has been recorded at the present value of future minimum lease payments. Payments will be made in quarterly installments of \$5,283 bearing interest at 4.644%. The lease will mature in fiscal 2023. Depreciation expense on the leased equipment for the year ended June 30, 2021 was \$0.

On June 28, 2021, the City executed lease payable with Americredit Financial Services for the purchase of two 2021 Chevrolet Tahoe's for the police department. The lease agreement qualifies as a capital lease for accounting purposes and therefore, has been recorded at the present value of future minimum lease payments. Payments will be made in quarterly installments of \$6,651 bearing interest at 4.517%. The lease will mature in fiscal 2024. Depreciation expense on the leased equipment for the year ended June 30, 2021 was \$0.

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2021 for the governmental capital leases are as follows:

u	3 10110110.		
	Year Ending		
5	June 30		
	2022	\$	37,170
	2023		37,170
	2024	-	25,236
	Total Minimum Lease Payments		99,576
	Less Amount Representing Interest		(6,468)
	Total	\$	93,108

Assets under capital lease at year end and accumulated depreciation are as follows:

Governmental Activities:							
Police Vehicles	\$ 105,042						
Less Accumulated Depreciation	=======================================						
Net Asset Value of Leased Assets	\$105,042						

NOTE 7. LONG-TERM DEBT

Governmental Activities

Note Payable

In July 2020, the City entered into an loan agreement with Georgia Transportation Infrastructure Bank through the State Road and Tollway Authority for the West Skyline View road repair project. Amount borrowed was \$517,300 bearing interest at 1.56%. The monthly payment on the note is \$4,858. It is scheduled to mature in fiscal 2031.

Notes to the Financial Statements June 30, 2021

The following schedule presents debt service requirements to maturity for the note payable with the Georgia Transportation Infrastructure Bank.

Year Ending								
June 30	F	Principal		Interest		Total		
			- 0					
2022	\$	48,338		\$	7,555	\$	55,893	
2023		48,918			6,975		55,893	
2024		49,670			6,223		55,893	
2025		50,468			5,425		55,893	
2026		51,261			4,632		55,893	
2027-2031		268,645			10,820		279,465	
Totals	\$	517,300		\$	41,630	\$	558,930	

Business-type Activities

Refunding Revenue Bonds:

The City issued bonds where revenues from the business-type activities are used to pay debt service.

Paulding County Industrial Building Authority Refunding Revenue Bonds (City of Dallas W & S project) Series 2016:

On August 1, 2016, the City of Dallas issued \$8,165,000 in Refunding Revenue Bonds. These bonds will mature in the year 2030 and have interest rates of 2% to 4%. The bond issue of \$8,165,000, plus premiums of \$884,996 less bond issuance cost of \$217,876 provided net proceeds of \$8,832,120. A portion of the issue was used to refund \$2,922,120 of outstanding GEFA loans and refund \$5,910,000 of outstanding Series 2010 Bonds. These proceeds were deposited into an escrow account, where they were transferred immediately to the agencies that held the City's outstanding GEFA loans and Series 2010 Bonds. As a result, the GEFA loans and Series 2010 Bonds are considered defeased, and the liability for these portions has been removed from the proprietary fund and government-wide Statement of Net Position. The City gained a net present value benefit of \$702,218 with the refunding bond issuance.

The following schedule presents debt service requirements to maturity for Water/Sewer Refunding Revenue Series 2016 Bonds:

Year Ending				Amo	ortization of
June 30	Principal		Interest	Bon	d Premium
2022	\$	565,000	\$ 190,750	\$	80,689
2023		575,000	173,800		73,518
2024		600,000	156,550		66,222
2025		610,000	138,550		58,608
2026		630,000	120,250		50,866
2027-2030	_	2,740,000	267,176		113,018
Total	\$	5,720,000	\$ 1,047,076	\$	442,921

Notes to the Financial Statements June 30, 2021

Note Payable:

In December 2013 the City executed a note payable with the Georgia Environmental Finance Authority (GEFA) for wastewater treatment plant improvements. The loan closed in fiscal 2016 for \$18,294,186. Debt service on the loan began June 1, 2016 in the monthly amount of \$88,395 including interest calculated at 1.4%. At June 30, 2021, the City owed \$14,700,958 on the note.

The following schedule presents debt service requirements to maturity for the City's GEFA note.

Year Ending							
December 31		Principal		Interest		 Total	
2022	\$	859,432	_	\$	201,306	\$	1,060,738
2023	Ψ	872,555		Ψ	188,183	*	1,060,738
2024		884,850			175,888		1,060,738
2025		897,318			163,420		1,060,738

2027-2031		4,745,779			557,911		5,303,690
2032-2036		5,089,679			214,011		5,303,690
2037		441,384		_	1,589		442,973
Totals	\$1	14,700,958		\$,653,085	\$1	6,354,043

In August 2018 the City executed a note payable with the Georgia Environmental Finance Authority (GEFA) for expansion of the Pumpkinvine Creek Water Pollution Control Plant. The total amount approved for the loan was \$17,120,000. The agreement also included an Appalachian Regional Commission grant for an additional \$600,000 to be used on the expansion. As of June 30, 2021 the project was in progress and the City had drawn \$15,811,470 of the available funds to be paid back. Upon completion, the note will amortize over 20 years including interest calculated at 1.25%.

The City's long-term debt transactions for the year ended June 30, 2021 are as follows:

		eginning Balance	,	Additions	R	eductions		Ending Balance	ue Within Ine Year
Governmental Activities: Compensated Absences Note Payable Capitalized Leases	\$	157,338 - 7,404	\$	152,431 517,300 93,108	\$	(169,937) - (7,404)	\$	139,832 517,300 93,108	\$ 139,832 48,338 43,422

The liabilities for compensated absences are liquidated proportionally by the general, water/sewer, and solid waste funds.

Notes to the Financial Statements June 30, 2021

NOTE 8. PENSION PLAN

Plan Description

The City has a non-contributory defined benefit plan covering all full time employees and elected officials. The plan, the City of Dallas Retirement Plan, is administered by the Georgia Municipal Employees Benefit System (GMEBS) a statewide, agent multiple employer defined benefit plan. GMEBS policy direction and oversight for the fund is provided by a 15-member board comprised of elected and appointed municipal officials from among the fund's membership. GMEBS handles all administrative and investment functions relative to the plan. The Georgia Municipal Employees Benefit System issues a publicly available annual financial report that includes financial statements and required supplementary information. This report may be obtained by contacting the Georgia Municipal Employees Benefit System, C/O Georgia Municipal Association – Risk Management and Employee Benefit Services, 201 Pryor Street, SW, Atlanta, Georgia 30303.

The plan provides pension benefits, death and disability benefits for all employees and elected officials at the time of employment/service (no waiting period). The City continues to have the authority to establish, amend or discontinue the Plan. The City does not require employees to contribute to the Plan in order become a member of the Plan and receive pension benefits. The Plan is fully funded by the City of Dallas' (employers) contributions. Employees are vested after 5 years of service and elected officials are vested in the Plan immediately. Members may retire at age 65 with 5 years of service or take an early retirement at age 55 with 10 years of service. Benefits are calculated at 1.0% to 1.75% of the average monthly earnings for the period of the five highest years prior to retirement.

Funding Policy and Pension Cost

The City's funding policy for the plan is to contribute an amount equal to the actuarial recommended contribution each year. These contributions are determined under the projected unit credit actuarial cost method and the asset valuation method for developing the actuarial value of assets. The period, and related method, for amortizing the initial unfunded actuarial accrued liability is 30 years from 1981 and current changes in the unfunded actuarial accrued liability over 15 years for actuarial gains and losses, 20 years for plan provisions and 30 years for actuarial assumptions and cost methods as a level dollar amount. The amortization periods, if applicable, are closed for this plan year.

The Plan is subject to the minimum funding standards of the Public Retirement Systems Standards Law (Georgia Code Section §47-20-10). According to the actuarial valuation dated January 1, 2020, the estimated minimum annual contribution under these funding standards is \$314,407. The GMEBS Board of Trustees has adopted an actuarial funding policy that requires a different funding level than the estimated minimum annual contribution. Since the City's policy is to pay the actuarial recommended contribution amount proposed by GMEBS in each year, the Plan will meet applicable funding standards. Under the same actuarial valuation, the recommended contribution to the plan for the year ended June 30, 2021 was \$401,760 (\$0 employee and \$401,760 employer), or 13.27% of annual covered payroll. The City's contribution to the Plan as of June 30, 2021 was \$401,760, which was equal to 100 percent of the recommended contribution for the year.

As of January 1, 2020 the plan membership includes the following categories of participants:

Retirees and beneficiaries currently receiving benefits	29
Inactive participants with vested rights	13
Vested active participants	41
Not vested participants	<u>32</u>
, , , , , , , , , , , , , , , , , , ,	
Total	<u>115</u>

Notes to the Financial Statements June 30, 2021

Net Pension Liability

The City's Net Pension Liability (NPL) was measured as of January 1, 2021, along with the Total Pension Liability (TPL) and Fiduciary Net Position (FNP) used to calculate the NPL. These actuarial assumptions are based on the results of an actuarial measurement date of September 30, 2020.

Notes to the Financial Statements June 30, 2021

Significant Actuarial Assumptions:

Net Investment Rate of Return 7.375% per year

Projected Salary Increase 2.25% plus service based merit increases

Inflation Rate 2.25%

Post Retirement Benefit Increase N/A

Actuarial Methods:

Actuarial Cost Method Projected Unit Credit

Amortization Method Closed Level dollar for remaining unfunded liability

Remaining Amortization Period Remaining amortization period varies for the

bases, with a net effective amortization period of

10 years

Actuarial Value of Assets Roll forward prior year's actuarial value with

contributions, disbursements, and expected return on investments, plus (minus) 10% of investment gains (losses) at end of year. The actuarial value is adjusted, if necessary, to be within 20% of market

value.

Mortality Rate Mortality assumptions are based on the results of

an actuarial experience study for the period

January 1, 2015 to June 30, 2019.

According to the January 1, 2021 actuarial report, the City recognized \$691,422 in pension expense for the June 30, 2021 reporting year.

The following table shows the recognized deferred outflows/inflows of resources related to the City's pensions plan as of June 30, 2021:

	 red Outflows Resources	Deferred Inflows Of Resources		
Differences between expected and actual experience	\$ 628,941	\$	-	
Changes of assumptions	320,371		-	
Net differences between projected and actual earnings				
on pension plan investments	3 51 7		(57,925)	
Deferred outflows after measurement date	 301,320		<u> </u>	
Total as of June 30, 2021	\$ 1,250,632	\$	(57,925)	

City contributions subsequent to the measurement date of \$301,320 are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ended June 30, 2021.

Notes to the Financial Statements June 30, 2021

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30:	
2022	\$225,525
2023	214,440
2024	211,908
2025	171,146
2026	68,370
Thereafter	.=

Net Investment Return

The long-term expected rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns, net pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset collection as of March 31, 2020 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	45%	6.40%
International Equity	20%	7.05%
Real Estate	10%	4.50%
Global Fixed Income	5%	1.25%
Domestic Fixed Income	20%	1.15%
Cash	0%	
	100%	

NOTE 9. SPECIAL PURPOSE LOCAL OPTION SALES TAX

On May 24, 2016, Paulding County voters passed a continuation for a special one percent sales and use tax be imposed in Paulding County for a period of time not to exceed twenty-four calendar quarters. Actual collection of the tax began on April 1, 2017 and will be in effect until March 31, 2023. The City of Dallas' distributive share of the revenue is projected to be \$8,030,000 and used for street and road improvements, recreational facility capital outlay projects, and public safety capital outlay projects and City Hall and public/ administrative buildings.

NOTE 10. RISK MANAGEMENT

At year-end there were no legal actions taken by or against the City that would have an adverse effect on the City's financial condition. The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the City's attorney the resolution of these matters will not have a material adverse effect on the financial condition of the City.

The City is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; injuries to employees and natural disasters. The City has joined with other municipalities in the state as part of the Georgia Interlocal Risk Management Agency (GIRMA) for its property and liability insurance, and the Worker's

Notes to the Financial Statements June 30, 2021

Compensation Self-Insurance Fund (WCSIF) for injuries to employees. Both are public entity risk pools currently operating as common risk management and insurance programs for member local governments. The Georgia Municipal Association (GMA) administers both risk pools.

As part of these risk pools, the City is obligated to pay all contributions and assessments as prescribed by the pools, cooperate with the pools' agents and attorneys, follow loss reduction procedures established by the funds and to promptly report all incidents which could result in the funds being required to pay any claim for loss. The City is also to allow the pools' agents and attorneys to represent the City in investigation, settlement discussions and all levels of litigation arising out of any claim made against the City within the scope of loss protection furnished by the funds. The funds are to defend and protect its members against liability or loss as prescribed in the member governments' contracts and in accordance with the workers' compensation laws of Georgia. The funds are to pay all cost taxed against members in any legal proceedings defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense.

During the past three fiscal years, the costs of any settlements have not exceeded insurance coverage.

NOTE 11. RESTRICTED ASSETS AND RESTRICTED NET POSITION

Restricted Assets

The City is required to establish and maintain cash accounts to comply with external legal requirements. The capital project SPLOST cash funds are restricted for specified capital projects or improvements approved by each voter referendum. The Confiscated Funds Cash is restricted for monies used in law enforcement activities.

At June 30, 2021, the balances in the restricted cash accounts are as follows:

Governmental Activities:

Confiscated Funds \$ 18,832
Capital Projects 3,108,452
Total Restricted Assets \$3,127,284

Restricted Net Position

Restrictions are used to indicate that a portion of the fund balance/net position is not available for appropriation or is legally segregated for specific future use. The City uses the following restrictions:

Governmental Funds:

Restricted for Capital Project Activities - Created to segregate money received from federal or state sources that restrict the funds eligible for capital construction projects.

Restricted for Law Enforcement Activities - Created to segregate money received from federal or state sources that restrict use for law enforcement purposes only.

NOTE 12. HOTEL MOTEL TAX

The City of Dallas levies a 5 percent hotel/motel tax. The City is required to distribute 2% to the Paulding County Chamber of Commerce and 3% back to the City for the purpose of promoting tourism. For the year ended June 30, 2021, the City recognized \$14,393 in Hotel/Motel tax revenue and distributed \$6,375 to the Chamber and transferred \$9,924 to the General Fund for operating purposes.

Notes to the Financial Statements
June 30, 2021

NOTE 13. POST-EMPLOYMENT HEALTH CARE BENEFITS

Plan Description: In addition to providing pension benefits, the City of Dallas offers certain health care benefits to qualified retired employees through an Other Post Employment Benefit (OPEB) plan called the City of Dallas OPEB Plan. The plan is administered by the Georgia Municipal Employees Benefit System (GMEBS) a statewide, agent multiple employer defined benefit plan. GMEBS policy direction and oversight for the fund is provided by a 15-member board comprised of elected and appointed municipal officials from among the fund's membership. GMEBS handles all administrative and investment functions relative to the plan. The City continues to have the authority to establish, amend or discontinue the Plan. Employees are not required to contribute to the Plan.

Benefits Provided: All current employees and future employees who are at least fifty years of age and have at least 30 years of service may be eligible for post-employment health care benefits. The health care benefits offered to the participants will be paid for until the participant reaches 65. Benefits are payable to a surviving spouse until they are Medicare eligible. The plan is administered by Georgia Municipal Association statewide, agent multiple-employer type plan.

Contributions: As established by GMEBS, the City of Dallas OPEB Plan is maintained on a pre-funded basis, that is the annual contributions made by the City are based on an actuarially determined contribution rate. Contributions to the City of Dallas OPEB plan was \$68,080 for the year ended June 30, 2021. Active employees are not required to contribute to the fund.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2020, the City reported a net OPEB liability of \$459,468. The net OPEB liability was measured as of June 30, 2019. The total OPEB liability used to calculate the net OPEB liability was based on an actuarial valuation as of June 30, 2019. An expected total OPEB liability as of June 30, 2020 was determined using standard roll-forward techniques. The plan's actuarially calculated deferred inflows and outflows as of June 30, 2021 were not available as of the issuance of the audit report.

At June 30, 2020 and 2021, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	 Of Resources		red Inflows Resources
Differences between expected and actual experience	\$ 132,996	\$	91,399
Changes of assumptions	148,750		235,482
Net differences between projected and actual earnings			
on OPEB plan investments	25		10,599
Plan contributions after measurement date	42,553		
Total	\$ 324,299	\$	337,480

Funding Policy: The information provided for the City of Dallas' Other Post-employment Benefit Plan is based on an actuarial report with a measurement date of June 30, 2020.

Discount Rate: The discount rate used to measure the total OPEB liability at June 30, 2020 was 7.375%. The projection of cash flows used to determine the discount rate assumed that City contributions will be made at rates equal to the actuarially determined contribution rates. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

Notes to the Financial Statements June 30, 2021

Sensitivity of the City's net OPEB liability to changes in the discount rate: The following presents the City's proportionate share of the net OPEB liability calculated using the discount rate of 7.375%, as well as what the City's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.375%) or 1 percentage-point higher (8.375%) than the current discount rate:

	Decrease 6.375%)	¥	ent Discount e (7.375%)	1% Increase (8.375%)		
Net OPEB Liability	\$ 561,673	\$	459,468	\$	369,982	

Sensitivity of the City's net OPEB liability to changes in the healthcare cost trend rates: The following presents the City's net OPEB liability, as well as what the City's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

			Currer	nt Healthcare		
	_1%	Decrease	Cost	Trend Rate	1%	Increase
Net OPEB Liability	\$	344,922	\$	459,468	\$	595,981

The Georgia Municipal Employees Benefit System issues a publicly available annual financial report that includes financial statements and required supplementary information. This report may be obtained by contacting the Georgia Municipal Employees Benefit System, C/O Georgia Municipal Association – Risk Management and Employee Benefit Services, 201 Pryor Street, SW, Atlanta, Georgia 30303.

NOTE 14. JOINT VENTURE

The City of Dallas is a member of the Northwest Georgia Regional Commission. The Northwest Georgia Regional Commission was created under the laws of the State of Georgia and cities and counties in the area served by the Northwest Georgia Regional Commission are required to be members. The membership of this commission includes 15 counties and 49 municipalities. The City has no equity interest in this commission nor does the City materially contribute to the continued existence of this commission. The Official Code of Georgia Annotated Section §50-8-39.1 states that in the event the Northwest Georgia Regional Commission ceases operation, the membership can be assessed for any debt or obligation of the Northwest Georgia Regional Commission. Separate financial statements may be obtained from: Northwest Georgia Regional Commission 1 Jackson Hill Drive, Rome, Georgia 30162-1798.

NOTE 15. CONSTRUCTION COMMITMENTS

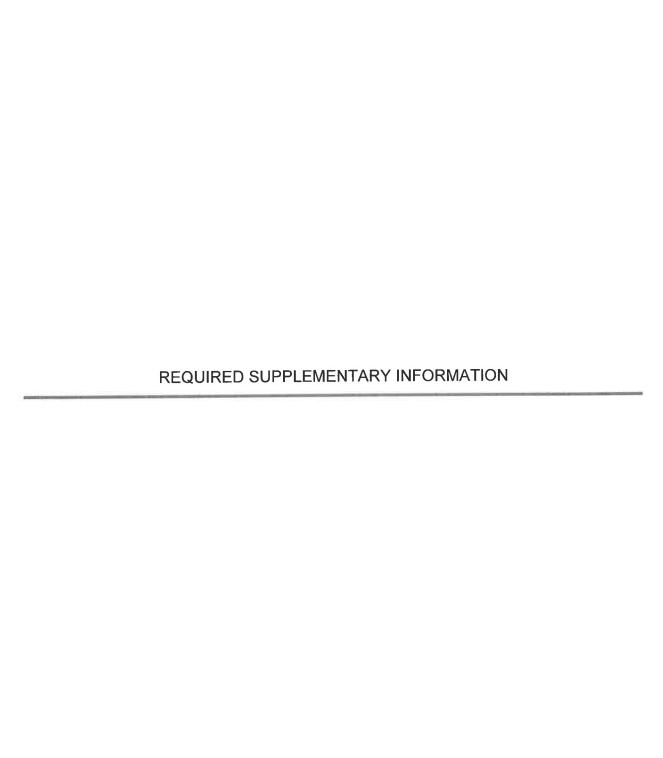

The City's contracted construction commitments in progress as of June 30, 2021 are as follows:

Governmental Activities

The City has a two-phase project for the improvement of historical land marks and recreational areas in the City limits. The Dallas Battlefield Project incurred costs of \$330,695 in fiscal 2021 and as of the year ended June 30, 2021, total costs incurred on this project totaled \$1,113,368.

Business-type Activities

The City Wastewater Treatment Plant Improvements and Expansion project was in progress at year end also. These projects are being funded by a loan the City acquired through Georgia Environmental Finance Authority. This project incurred costs of \$5,859,936 in fiscal 2021 and as of the year ended June 30, 2021, total project length costs incurred on this project totaled \$17,995,510.

Notes to Schedule:

Methods and Assumptions Used to Determine Contribution Rates

Valuation Date:

The actuarially determined contribution rate was determined January 1, 2020 with an interest rate adjustment to the fiscal year.

Actuarial Cost Method Projected Unit Credit

Amortization Method Closed level dollar for remaining unfunded liability

Remaining Amortization Period Varies for the bases, with a net effective amortization period of 11 years

Asset Valuation Method Sum of actuarial value at beginning of year and the cash flow during the year plus the assumed investment return, adjusted by 10%

of the amount that the value exceeds or is less than the market value at the end of the year. The actuarial value is adjusted, if

necessary to be within 20% of market value.

Cost of Living Adjustments 0.00

Salary Increases 2.25% plus age and service based merit increases

Investment Rate of Return 7.375% net pension plan investment expense, including inflation

Retirement Age Normal - 65-55; Early - 55

Mortality The mortality and economic actuarial assumptions used in the June 1, 2016 valuation were approved by the Board in December

2014 based on the results of an actuarial experience study for the period January 1, 2010 through June 30, 2014 conducted by

Segal Consulting.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Mayor and Council of the City of Dallas, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, and each major fund of the City of Dallas, Georgia, as of and for the year ended June 30, 2021 and the related notes to the financial statements, which collectively comprise the City of Dallas, Georgia's basic financial statements, and have issued our report thereon dated March 23, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Dallas, Georgia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Dallas, Georgia's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Dallas, Georgia's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over financial reporting that we consider to be a material weakness. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Dallas, Georgia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We noted certain matters that we reported to management of the City of Dallas in a separate letter dated March 23, 2022.
