STATEMENT FROM CITY OF DALLAS MAYOR JAMES KELLY

“As Mayor of our wonderful city, the citizens have elected myself and the council to help govern the City of Dallas, GA. We have a responsibility to look out for our residents and business owners. We work hard every day with staff members and our public safety officers to keep our city safe and vibrant. We are disappointed with what has transpired with one of our local businesses but at the same time we have to hold everyone to the same standards and practices. We have to follow our own ordinances and codes that are established within our city government or else there would be chaos and disorder. We are currently working with the business owners to help get them in compliance with our ordinances and codes. We hope we can help get the issues resolved so that they can reopen but we have to hold everyone to the same standard. We will continue to work with all of our businesses here in the city. We love our small town here in Dallas and look forward to all the different projects and opportunities that will continue to happen here that will help our city and citizens to have a better quality of life.”
