Permit Office 770-443-8110 ext. 1203 / City Hall 770 443-8110 / Email: melgaydi@dallas-ga.gov

INSPECTION PROCEDURES **CALL THE CITY OF DALLAS @ (770) 443-8110 ext. 1203** **Or Email: inspections@dallas-ga.gov**

All permits are required to obtain inspections at the time. (1) Prior to the pouring of footings or concrete slabs. (2) Prior to any covering of the framing. (3) After insulation has been installed and all penetrations are sealed (Blown attic insulation will be inspected on final). (4) A Final after ALL items are completed. All construction must comply with the Minimum Construction Codes as adopted by the State of Georgia and all City of Dallas Ordinances, Procedures and Regulations.

- Building Permit must be posted on the lot before calling for an inspection. If your home/business is not visible from the road, post the Building Permit at the beginning of your driveway.
- If the Lot is in a Subdivision, Lot numbers must be placed on all Lots.
- The General Contractor/Builder must call the City of Dallas for an Inspection for the following:
 - Footing
 - Plumbing in Slab (if applicable)
 - Rough (Includes: Framing, Plumbing, Electrical and HVAC at the same time)
 - Insulation
 - Final for All
- For Doublewides: Manufactured homes/doublewides must comply with section 44-139 (3) of the City of Dallas Zoning Ordinance.

When CALLING TO SCHEDULE AN INSPECTION @ (770) 443-8110 ext.1203 **Or Emailing: inspections@dallas-ga.gov**

If you schedule an inspection and the work is not complete, there will be a \$25 fee for the first re-inspection. There will be a \$50 fee for the second re-inspection and a \$100.00 fee for the third re-inspection.

- Give name listed on permit
- Give permit number
- Give address and location
- Give type of inspection(s) requested
- Give name and phone number of person requesting inspection
- Give the date inspection is wanted

If possible, inspections will be made the next work day following the request. Inspections for next day should be called in before 2:00 p.m.

MINIMUM FEE IS \$100.00		

Official Code of Georgia Section 43 - Chapter 15

43-15-24. Construction of structures jeopardizing health, safety, or welfare: record of building permits.

(a) It shall be unlawful for this state or any of its political subdivisions such as a county, municipality, or school district, or agencies thereof, or for any private or commercial entity to engage in, the construction of any work or structures involving professional engineering which by the nature of their function or existence could adversely affect or jeopardize the health, safety, or welfare of the public unless the plans and specifications have been prepared under the direct supervision or review of and bear the seal of, and the construction is executed under the direct supervision of or review by, a registered professional engineer or architect.

(b) Nothing in this Code section shall be held to apply to any construction, including alterations, of which the completed cost is less than \$100,000.00 or which is used exclusively for private or noncommercial purposes, or to private residences, or to noncommercial farm buildings, or to residence buildings not exceeding two stories in height, excluding basements.

(c) Any county, municipality, or other governing body in this state that issues building permits is required to maintain a permanent record of the permit application and issuance thereon, which record shall indicate the name of the professional engineer or architect, if any, that has sealed the plans, specifications, plats, or reports pursuant to which said building permit is issued, said record to include details on the size, type of building or structure, use for said building or structure, and estimated cost of construction.

Soil Erosion & Sediment Control Policies

1. The Permit Holder is responsible for compliance with the City of Dallas ordinances and State of Georgia laws concerning soil erosion and sedimentation control. The Permit Holder is responsible for the proper installation and maintenance of the following measures, at a minimum:
 - a. Silt fence at the downhill edge of all areas to be disturbed, installed with at least 6 inches of silt fence buried to prevent siltation under the fence;
 - b. Hay bale reinforcement of the silt fence where the slope is steep;
 - c. **A GRAVEL ENTRANCE, MANDATORY DURING CONSTRUCTION**, to keep soil and mud from being tracked from vehicles onto the street;
2. A seventy five (75) foot buffer is required along all flowing creeks and streams. Fifty (50) foot of the buffer is non-disturbed and twenty five (25) foot of no impervious. This undisturbed buffer shall be protected at all times.
3. The Permit Holder must maintain the soil erosion control measures during all phases of construction, and may not remove the silt fence until the lot has been sodded or seeded for grass and covered with 2 1/2 tons per acre with straw mulch. If the soil erosion control measures are not maintained on site, the Permit Holder will be subject to penalties up to and including fines and/or stop work orders. The Permit Holder is responsible for all soil erosion and sedimentation control activities and violations, regardless of whether he has contracted this work to another. The City will not conduct building inspections on sites that are not consistent with the provisions of this application.
4. There shall be no burial or burning of wood waste, trees, stumps, or construction debris allowed, except in compliance with the rules of the Georgia Department of Natural Resources Environmental Protection Division.
5. These erosion control devices must be cleaned and maintained until the disturbed areas are stabilized with permanent vegetation. Failure to properly maintain or install these devices will result in the issuance of violation notices. Failure to comply with the terms of the notice will result in the withholding of all inspections and possible legal action by the City of Dallas.
6. A copy of the NOI (Notice of Intent) must be furnished to the permit office before a building permit will be issued. Any changes in the NOI must also be furnished to the permit office in a reasonable amount of time.

I have read and understand the above soil erosion and sediment control policies of the City of Dallas, Georgia.
