How to Submit Ink Cards
(/ga/GA_DOCS_html/GA_InkCards.htm)

Welcome to the Georgia Applicant Processing Service for fingerprint background requests

Electronic submission of fingerprint images will involve the use of a Gemalto Cogent Livescan machine. The Livescan captures fingerprint images and demographic data and submits this information to GBI. GBI conducts a search of its criminal history records using the fingerprint images. In some cases, these images are also forwarded to the FBI where a Federal Criminal History Record search is also conducted. Notifications of the search results are then forwarded from the GBI/FBI to Gemalto Cogent where these results are then electronically disseminated to the Georgia company or agency that requested the search to be completed.
